

SANITRAX SHOWER MODULE

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, shower modules must be provided in most cases.

In addition to the optimal installation of the sanitary facilities, it's particularly important that the modules can be thoroughly and quickly cleaned between uses. The attractive, sturdy and very easy-to-use Sanitrax showers are the ideal solution!

A VERY ATTRACTIVE AND SPACIOUS MOBILE SHOWER

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

A module consists of three showers. The attractively designed, spacious showers provide complete privacy and sufficient light and ventilation. A cabinet is available for the dry and safe storage of clothing and valuables.

The showers are equipped with water-saving shower heads and come with LED lighting. Furthermore, the attractive design and luxurious finish really stand out. The combination of all these factors makes the Sanitrax Shower Module the most complete solution on the market.

SANITRAX GOES THAT EXTRA MILE

Along with the very attractive shower module, the complete and modular Sanitrax product line also includes a washbasin, a urinal and a series of toilet modules (standard toilet, VIP toilet and a toilet for the disabled).
