

SANITRAX WASHBASIN MODULE

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, washbasin modules are an essential item.

Extremely practical, attractively designed and smartly equipped. It's also important that the modules can be thoroughly and quickly cleaned between uses. Sanitrax washbasins are the ideal solution!

A VERY USEFUL AND SPACE-SAVING WASHBASIN

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

A module consists of eight taps, four on either side. The attractively designed washbasins have a full-width stainless steel mirror and are equipped with integrated soap and hand towel dispensers. Used hand towels can be disposed of in several places in the washbasin module.

The washbasins are equipped with water-saving taps and come with LED lighting. Furthermore, the attractive design and luxurious finish really stand out. The combination of all these factors makes the Sanitrax Washbasin Module the most complete solution on the market.

SANITRAX GOES THAT EXTRA MILE

Along with the very complete washbasin module, the complete and modular Sanitrax product line also includes a shower, a urinal and a series of toilet modules (standard toilet, VIP toilet and a toilet for the disabled).

We're also happy to help you get started. Just as you can expect from a quality brand such as Sanitrax and our large network of partners, we go to work on your question and deliver a detailed overall plan and a situation report. It's easy to see why we're one of the fastest-growing companies in the market for temporary sanitary solutions.

Get in touch now to discuss your situation and needs. We'll be happy to help!
