

SANITRAX VIP SHOWER MODULE

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, a VIP shower is a much appreciated addition to the sanitary facilities.

You can use these solutions for staff members, employees or artists, for example, and customise them according to your needs. The modules are sturdy, luxuriously finished and equipped with all kinds of smart technology to save water. It's also important that the modules can be thoroughly and quickly cleaned between uses. The Sanitrax VIP shower is a unique addition to any venue!

UNIQUE MOBILE VIP SHOWER MODULE

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

The unique VIP module is easy to configure to suit your needs. One toilet and one shower, two toilets or two showers: adapting it is very

simple. Just by removing the toilet, you have a shower! Each toilet/shower space has its own designer washbasin for optimal comfort!

Features unique flushing technology (saving up to 80% in water use) in the toilets and the water-saving shower heads in the shower section. Efficient and very environmentally friendly.

Furthermore, the attractive design and smart finish really stand out. The combination of all these factors makes the Sanitrax VIPLOO the most complete solution on the market.

IDEAL FOR

- Events and festivals
- Temporary construction sites
- Military missions
- Disaster response / Humanitarian aid programs
