

SANITRAX URINAL MODULE

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, urinals are an important basic component in the sanitary facilities.

Extremely practical, attractively designed and equipped with smart flushing technology that saves water. It's also important that the units can be thoroughly and quickly cleaned between uses. Sanitrax urinals are indispensable at every venue!

A VERY FUNCTIONAL AND EASY-TO-USE URINAL

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

The unit can be used on two sides. Optional privacy sheets are available to increase users' privacy. The urinals are equipped with LED lighting and use unique automatic flushing technology to

keep the urinals fresh and clean with minimal water use. This represents enormous cost savings and is extremely environmentally friendly. Furthermore, the attractive design and luxurious finish really stand out. The combination of all these factors makes the Sanitrax Urinal Unit the most complete solution on the market.

SANITRAX GOES THAT EXTRA MILE

Along with the very functional urinal, the complete and modular Sanitrax product line also includes a shower, a washbasin and a series of toilet units (standard toilet, VIP toilet and a toilet for the disabled).
